September 2

08.40 Opening

Chair: Anna Sekaninová

08.45 - 9.15 Béla Csákány: Solutional classes of algebras

9.20 - 9.50 Katarzyna Halkowska: On lattices of some varieties

10.00 - 10.50 Nikolaj Medvedev: Small varieties and quasivarieties of lattice-ordered groups

from 11.00 Ivan Hrivňák (Rector of TU Košice): In honour of F. Šik and M. Kolibiar

Bohumil Šmarda: Seventy years of prof. František Šik

Tibor Katriňák: Seventy years of prof. Milan Kolibiar

%%%

September 3

Chair: T. Katriňák

08.45 - 09.25 Jerzy Plonka: Free algebras over some varieties

09.30 - 10.00 Gábor Czédli: The number of submodule lattice quasivarieties of prime power characteristic s

- coffee -

10.20 - 11.05 Alexander Pinus: Skeletons of varieties: results and problems

11.15 - 11.45 Jan Trlifaj: On tilting and $*$ -modules

11.55 - 12.25 Ryszard Mazurek: On a class of radicals of rings

Chair: B. Csákány

16.10 - 17.00 László Zádori: Irreducible posets

17.10 - 17.50 Kazimierz Glazek: Gamma-weak automorphisms and some connections of Galois type

%%%

September 4

Chair: F. Šik

08.45 - 09.25 Guenther Eigenthaler: Permutable polynomials

09.30 - 10.10 Evgenij Sukhanov: On the lattice of polynomial clones

- coffee -

10.30 - 11.00 Aleš Drápal: On multiplication group of a free loop

11.10 - 11.40 Elena Brožíková: Loop identities invariant under isotopies

11.45 - 12.30 Martin Gavalec: Partial order and consistence choice

%%%%%%%%%

September 8

Chair: M. Volkov

09.00 - 09.40 Thomas Drescher: Multi-algebras as models of operational semantic oriented specifications

09.50 - 10.20 Vjačeslav Salij: Quasi-Boolean automata

- coffee -

10.40 - 11.10 Robert Šulka: On alpha-ideals in the direct product of semigroups

11.20 - 11.45 Ladislav Satko: On SLA ideals

11.55 - 12.25 Ivan Korec: Elementary theories of generalized Pascal triangles

Chair:

17.15 - 18.00 Pavol Zlatoš: Betweenness in metric spaces

%%%%%%%%%
%%%%%%%%%

September 9

Chair: K. Glazek

8.45 - 9.05 Ivan Žembery: Relations between free algebras and homomorphisms

9.15 - 9.35 Wieslaw Dudek: Self-orthogonal n-ary groups

9.45 - 10.05 Alexander Alexandrov: Torsion and extensions of algebras and modules

10.15 - 10.45 Milan Jasem: Weak isometries in partially ordered groups
