Sunday, August 29

???

%%%%%%%%%

Monday, August 30

Chair: Jiří Rachůnek

9.00 - 9.50 Béla Csákány: Observations on minimal clones
10.00 - 10.30 Lutz Heindorf: Which spaces admit which structures

- coffee -

10.50 - 11.20 Aleš Drápal: Monogenerated left distributive algebras
11.30 - 12.00 Ivan Korec: Elementary theories of generalized Pascal triangles
12.10 - 12.30 Ivan Žembery: On permutability of algebraical operators H and S

- break -

Chair: Reinhard Poeschel

16.00 - 16.40 Klaus Denecke: Pre-solid varieties
16.50 - 17.20 Anne Fearnley: Strongly rigid relations on three elements
17.30 - 18.00 Milan Jasem: Weak isometries and direct decompositions of partially ordered groups

%%%%%%%%%

Tuesday, August 31

Chair: Béla Csákány

9.00 - 10.00 Jiří Tůma: Congruence lattices of lattices
10.10 - 10.40 Hans-Jurgen Vogel: Properties of subidentities in certain monoidal categories

- coffee -

11.10 - 11.40 Jerzy Plonka: Remarks on hyperidentities
11.50 - 12.20 Andreja Tepavčević: Special elements of lattices and applications in universal algebra

- break -

Chair: Kazimierz Glazek

16.00 - 16.30 Zdenka Riečanová: Counterexamples in difference posets
16.40 - 17.10 Peter Vojtáš: On some applications of algebraic theory of categories in set theory
17.20 - 17.50 Josef Šlapal: On categories of strongly regular relational systems

%%%%%%%%%

%%%%%%%%%

Wednesday, September 1

Chair: Lutz Heindorf

09.00 - 09.45 Reinhard Poeschel: Clones and relations lifted to the power set

09.55 - 10.40 Thomas Drescher: Lifting functions and relations

- coffee -

11.10 - 11.40 Georges Hansoul: Quasi-ordered systems and their applications

11.50 - 12.20 Ferdinand Boerner: Krasner algebras

14.00 Trip to the Demänovská cave

%%%%%%%%%

Thursday, September 2

Chair: Klaus Denecke

09.00 - 09.30 Jules Varlet: Dual space of a finite simple Ockham algebra

09.40 - 10.20 Libor Polák: On varieties of *-regular semigroups

- coffee -

10.40 - 11.10 Gyorgy Pollák: Minimal sets of words in free semigroups

11.20 - 11.40 Anatoli Reibold: On almost discrete groupoids

11.50 - 12.20 Silke Umbreit: Implications in fuzzy-valued contexts

- break -

Chair: Hans-Jurgen Vogel

16.00 - 16.30 Kazimierz Glazek: Weak automorphisms and a certain Galois connection

16.40 - 17.10 Ivan Chajda: Normally presented varieties

17.20 - 17.40 Radomír Halaš: Decompositions of directed sets with zero

%%%%%%%%%

Friday, September 3

Hiking trips

19.30 Banquet with a lecture of Prof. Hammerstein

%%%%%%%%%

Saturday, September 4

Chair: Ivan Chajda

09.00 - 09.30 Francois Lucas: TBA

09.40 - 10.00 Miroslav Ploščica: Affine complete distributive lattices

- coffee -

10.40 - 11.10 Bohdan Zelinka: Some new results on tolerances

11.20 - 11.50 Jiří Klimeš: Rotations on lattices

12.00 - 12.30 Judita Lihová: Posets having a self-dual interval poset

- break -

Chair:

16.10 - 16.40 Jan Paseka: Recent results on frames

16.50 - 17.45 Pavol Zlatoš: Dimensional compactness in nonstandard topological vector spaces
